

TRAFFIC LIGHTS NOT WORKING

If traffic signals are not working as they normally do, they will simply flash red or yellow lights. In these cases, follow the rules for flashing lights. If signals are blacked out and not functioning, you must treat the intersection as having stop signs in all directions. Proceed when it is safe to do so.

PEDESTRIAN SIGNALS

Special lighted signals are often used at crosswalks to indicate when pedestrians may cross a roadway. Pedestrians must obey the DON'T WALK and WALK signals.

LAWS FOR MOTORCYCLE RIDERS & PEDESTRIANS

Motorcycle riders and pedestrians alike are obligated to follow certain traffic regulations and road rules which help ensure safety. The following laws help to promote the safe interaction between motorists and pedestrians.

MOTORCYCLE RIDERS

- You must yield to any pedestrians entering or using a crosswalk in your travel path.
- Never let your motorcycle block a crosswalk.
- You must yield to pedestrians if your traffic signal is red or if it is red and yellow.
- Never pass a vehicle that has stopped or is slowing for a pedestrian.

PEDESTRIANS

- Use a crosswalk if one is available.
- At crosswalks with pedestrian signals, use the push button on the signal pole and wait for the WALK signal. Intersections without push buttons will give you WALK signals automatically.
- Before you cross a roadway, stop at the curb and look left and right for traffic. Be alert. Be especially aware of cars turning onto the road you are crossing.
